

- My name is Dianne Horgan. I've been a nurse at Carney Hospital for 38 years.
- I am also a Dorchester resident and have been actively involved in community health through volunteer work with the health centers and my career at Carney Hospital.
- I strongly support the agreement with Cerberus as it will strengthen community health and the hospital. The Cerberus agreement will help us to grow and improve to enable us to meet community healthcare needs with new facilities and technology such as new operating rooms and electronic medical records.
- Carney hospital is at the center of healthcare in our community. The hospital will be in a better position to strengthen and expand services so as to meet the needs of the community and continue to attract the best medical healthcare professionals.
- Living in the community, I feel very positive about the transaction with Cerberus. It will allow us to continue to provide excellent care and help to secure the long term ability for Carney Hospital to be a community healthcare provider that our community can depend on.
- Please support this sale.

Thank you
